

# Lecture Notes on Software Engineering

## CONTENTS

---

### Volume 2, Number 1, February 2014

Applying and Evaluating Architectural IEC 61508 Safety Patterns.....	1
<i>Christopher Preschern, Nermin Kajtazovic, and Christian Kreiner</i>	
Evaluation of the Effectiveness of a Web-Based e-Learning System for Tertiary Educational Institution.....	6
<i>Touhid Bhuiyan, Sharmin Khan, and Aynun Nahar</i>	
Securing Mobile Agent Systems in Which the Agents Migrate via Publish/Subscribe Paradigm.....	11
<i>Ahmet Ali Karzan and Nadia Erdoğan</i>	
PC Based Escape Analysis in the Java Virtual Machine.....	16
<i>Manfred Jendrosch, Gerhard W. Dueck, Charlie Gracie, and André Hinkenjann</i>	
Process in Evaluation Index of Intellectual Productivity Based on Work Concentration.....	21
<i>K. Uchiyama, K. Oishi, K. Miyagi, H. Ishii, and H. Shimoda</i>	
Web Services Selection Algorithm Based on the Quality of Service.....	26
<i>Ekkachai Naenudorn and Suphakit Niwattanakul</i>	
An Empirical Study on Requirement Management Process for Implementation Project of Information System.....	31
<i>Dong Seok Oh and Sung Yul Rhew</i>	
Evaluation of Domain Modeling Decisions for Two Identical Domain Specific Languages.....	37
<i>Christopher Preschern, Nermin Kajtazovic, and Christian Kreiner</i>	
Statistical Software and Regression Diagnostic Reporting with Fuzzy-AHP Intelligent Zax (FAIZ).....	42
<i>Shahid Anjum</i>	
The Performance of Rectangular Microstrip Structure by Applying the Cole-Cole Diagram Concept.....	48
<i>Settaponng Malisuwan, Jesada Sivaraks, and Nattakit Suriyakrai</i>	
An Efficient Method of Image-Sound Conversion Based on IFFT for Vision Aid for the Blind.....	54
<i>Xuan Zhang, Jian-Ming Wang, Xiao-Jie Duan, and Yu-Kuan Sun</i>	
Evaluation of Functional Parameters of Vehicle Simulators.....	58
<i>Grzegorz Gudzbeler, Andrzej Urban, and Krzysztof Lojek</i>	
An Approach of Software Requirements Elicitation Based on the Model and Notation Business Process (BPMN).....	65
<i>Marcos A. Chiarello, Maria Cláudia F. P. Emer, and Adolfo Gustavo S. S. Neto</i>	
Electronic Learning Industrial Environment System (eLINS) for Academia-Industry Collaboration.....	71
<i>Nor Azliana Akmal Jamaludin and Shamsul Sahibuddin</i>	
A Proposal of Interaction Modelling Formalisms in Virtual Collaborative Work Spaces.....	76
<i>Dario Rodriguez and Ramon Garcia-Martinez</i>	

An Extensible Healthcare Context Engine Based on Smart Phones.....	81
<i>Zheng Guangbin, Muhammad Arshad Awan, and Shin-Dug Kim</i>	
A Biometric Identification Course for eScience Virtual Lab.....	87
<i>Samir Akrouf, Selmani Larbi, Boubetra Djamel, and Mostefai Messaoud</i>	
An Empirical Study on Adjustment Factors to Estimate Maintenance Cost of Applications Developed Using Components.....	90
<i>Byoung-Chol Lee and Sung Yul Rhew</i>	
A WBS-Based Plan Changeability Measurement Model for Reducing Software Project Change Risk.....	94
<i>Sen-Tarng Lai</i>	
Domain Ontology Construction by Partial Import for Document Annotation.....	100
<i>Tayybah Kiren, Muhammad Shoaib, and Sang-Jo Lee</i>	
Towards Measurement of Security Effectiveness Enabling Factors in Software Intensive Systems.....	104
<i>Reijo M. Savola</i>	
A Study of Compliance Based on Fault Analysis for Improving Reliability of Maintenance.....	110
<i>Jang-Seop Song and Sung-Yul Rhew</i>	
Towards an Ontology for UML State Machines.....	116
<i>Youcef Belgueliel, Mustapha Bourahla, and Mourad Brik</i>	
Open Problems in Software Test Coverage.....	121
<i>Dalal Z. Alrmuny</i>	
Strategies of Prioritizing Requirements to Support on-Line Service Companies' Service Improvement Decision-Making.....	126
<i>Dong Seok Oh, Hye Young Jeon, and Sung Yul Rhew</i>
