

# Lecture Notes on Software Engineering

## CONTENTS

---

---

### Volume 3, Number 1, February 2015

#### • Requirements Engineering and Reverse Engineering

An Approach for Prioritizing NFRs According to Their Relationship with FRs.....1  
*Mohammad Dabbagh and Sai Peck Lee*

R3ST for Requirements Recovery of Legacy Runtime Code.....6  
*Eko K. Budiardjo, Elviawaty M. Zamzami, and Wahyudianto*

Hybrid Algorithm to Protect Java's Code from Reverse Engineering.....11  
*Asmaa M. Alhakimy and Abu Bakar Md. Sultan*

#### • Software Quality and Agile Development

Increase Software Dependability via AOP-Based Runtime Adaptation.....17  
*Shan Tang, Liping Li, and Bin Zhu*

Metric's Thresholds for Encoding Evolutionary Computing Representation in Software Engineering Problem  
.....22  
*Abubakar D. Bakar, Abu Bakar Md. Sultan, Hazura Zulzalil, and Jamilah Din*

An Ontological Model of Experience-Based Knowledge Management in Agile Software Development  
Environment.....26  
*Nik Sakinah Nik Ab Aziz and Rusli Abdullah*

#### • Software Systems Analysis and Design

Design of the Integrated Logistics Information System Based on Cloud Computing.....31  
*Minjeong An and Hongchul Lee*

Cognitive Power Adjustment for OFDM-Based Wireless Communication System: An Empirical Study.....35  
*W. Hashim, A. F. Ismail, N. M. Anas, H. A. M. Ramli, and K. Abdullah*

A Framework for Auditing the Evaluation of Uncertainty for Compliance in Information Systems.....40  
*Usha Bala Varanasi and B. D. C. N. Prasad*

Location-Based Reporting and Mapping of Crimes Using Google Maps.....44  
*Jan B. Elnas, Eldrin C. Duran, James Leo E. Mayol, and Rabby Q. Lavilles*

Computational Intelligence Approach for Process Parameter Settings Using Knowledge Representation.....49  
*Henry C. W. Lau*

Design of the Uyghur FrameNet Desktop.....53  
*Mirejiguli Rezhake and Alifu Kuerban*

ARIS Enterprise Architecture's Usage Reviews.....57  
*Saiedeh Ghatrei*

Implementation and Performance Evaluation of Three Routing Protocols for Mobile Ad Hoc Network Using

Network Simulator.....61  
*Suhaila A. Dabibbi and Shawkat K. Guirguis*

Computerising the Voting Process: On the Difficulties and Benefits of Biometric Verification Elections.....67  
*Kofi A. Boateng and Mawulorm Akaba*
